1. Policy Statement

- 1.1 UHI and partners are committed to providing a safe and supportive learning environment for students, staff, visitors, members of the public and external partners. This policy on student criminal offence data forms a key part of that commitment, alongside a suite of other policies and procedures.
- 1.2 UHI and partners are committed to the principles of equality of opportunity. This policy has been developed to ensure that applicants and students are treated fairly and transparently with regard to their application for admission and/or continuing studies with UHI and partners in the event of criminal offence data becoming known.
- 1.3 For the avoidance of doubt, in accordance with other Scottish educational institutions, UHI and partners do not require compulsory disclosure of all criminal offence data in every circumstance. Current or prospective students may disclose criminal offence data, and we may be provided with this information by external agencies or other processes (e.g. Protecting Vulnerable Groups scheme applications).
- 1.4 As a general principle, UHI/UHI Argyll requires the minimum information possible about student criminal offence data deemed to be significant and/or relevant to the course of study. Significance and relevance are contextual, but in general issues such as minor traffic offences and other fixed penalty notices will not be significant or relevant. Students with concerns about relevance of offence data should feel comfortable having a confidential discussion with UHI Argyll staff regarding their circumstances.
- 1.5 UHI and UHI Argyll reserve the right in certain circumstances to withhold access to certain modules, courses, learning environments (physical and virtual) and placements following a risk assessment if it suggests we will be unable to provide a safe and supportive learning environment for the individual, students, staff, visitors, members of the public and external partners.
- 1.6 UHI Argyll undertakes to ensure that, by this policy and other procedures, it operates in consideration of all relevant statutory legislation and professional body requirements. In some circumstances UHI Argyll may be provided with information by external agencies.

2. Definitions

- 2.1 **UHI and partners:** UHI is an integrated university, made up of a distinctive partnership of independent colleges and research institutions. The partners are: UHI Argyll, UHI Inverness, UHI Moray, UHI North Highland, UHI Outer Hebrides, UHI Shetland, UHI West Highland, Highland Theological College UHI, Orkney College UHI, Perth College UHI, Sabhal Mòr Ostaig, and Scottish Association for Marine Science (SAMS).
- 2.2 **Criminal offence data:** UHI Argyll uses the Information Commissioner's Office (ICO) definition of criminal offence data: 'personal data relating to criminal convictions and offences or related security measures'. The ICO definition covers a wide range of information about offenders or suspected offenders in the context of:
 - Criminal activity
 - Allegations
 - Investigations

- Proceedings

In some circumstances, particularly for courses that involve Protecting Vulnerable Groups (PVG) scheme membership application or courses with stringent professional requirements, it includes not just data which is obviously about a specific criminal conviction or trial, but may also include personal data about:

- Unproven allegations
- Information relating to the absence of convictions

It also covers a wide range of related security measures, including:

- Personal data about penalties
- Conditions or restrictions placed on an individual as part of the criminal justice process
- Civil measures which may lead to a criminal penalty if not adhered to

2.3 **Duty of Care:** Our responsibility to use professional expertise and judgement to protect and promote the best interests of students, staff, visitors, members of the public and external partners, and to ensure that we exercise an appropriate level of care towards them, as is reasonable within the parameters of our relationship.

2.4 **Risk assessment:** A process to assess the risk that may be posed to our community based on the disclosure of criminal activity or conviction (only where it is deemed to be significant and/or relevant to the course of study). In some circumstances this may involve more than one partner from the university partnership if a student engages with multiple campuses either physically or via a virtual platform.

2.5 **External agencies:** This may include police forces, prison services, social work departments, health services and support organisations.

3. Purpose

Established protocols allow the sharing of Prevent-related concerns between relevant public bodies.

3.2.3 We encourage all applicants and students to disclose information about any relevant criminal convictions or police proceedings which may affect their ability to take part in/complete key aspects of their programme or placement. Risk assessments are carried out where significant concerns exist based on the evidence of student criminal activity. All risk assessments should be completed anonymously e.g. the identity of the applicant/student should not be known and should only be identifiable by a reference number allocated by the Admissions Team. The risk assessment must be undertaken by an independent manager with appropriate training and experience, taking into account:

- Whether admission or retention of the individual would pose a significant and unacceptable risk to our community, including the individual, students, staff, visitors, members of the public and external partners either physically or virtually.
- Whether there are any specific requirements related to the course applied for (or being undertaken) which need to be considered, including placements, future employment and membership of professional organisations.
- Type/category of offence; date of occurrence; any restrictions in place on the individual.

3.6 Support for applicants and students disclosing criminal offence data

3.6.1 We will offer support and guidance to applicants/students disclosing criminal offence data about course selection and career planning and advise on the scope for any potential course or placement adjustments.

3.6.2 Under some circumstances UHI Argyll may have no choice but to advise applicants/students that due to their circumstances supporting an application/retention on a course will not be possible. In this situation UHI Argyll will work with individuals to try to identify suitable alternatives.
